Divided in 2 parts, this book first guides the reader into the tiger's world to discover what animal is hiding in the jungle through clues, in a poetic language and little visual hints hidden on the beautifully illustrated pages.

Once the first part is done, readers will discover that they can separate the pages, to expose more information about these fantastical animals, the challenges they face now, and how we can help tigers to resist in the wild.

Aimed at young children, this book enchants and educates at the same time. Developed with a world audience in mind, it will ease discussions into ecology and human responsibility towards our planet and all that live on it.
