

A Field Guide for young explorers

Parks and gardens

Age
7+

This book invites readers to explore the world around them, developing a curious eye to their surroundings.

ENGLISH
TEXT AVAILABLE

A field guide brings information and curiosities about the natural world (animals, plants, astronomy and climate), tips on how to create a nature journal and suggested activities to help kids engage fully with the natural environment, even if they live in big cities.

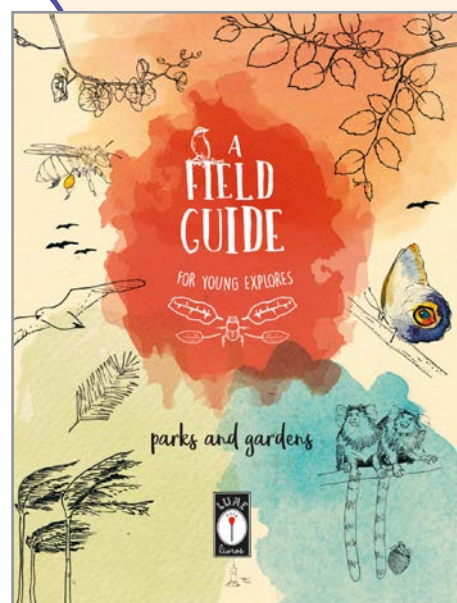

The book has several blank pages, so children can continue their explorations and develop their own personalized nature journals.
